

## CPR Information Sheet

Some clinical externship sites require American Heart Association (AHA) approved CPR programs. The AHA course, ***CPR for the Health Care Provider***, offers all the training necessary to be prepared in the field.

The American Red Cross and other private CPR programs also offer courses that will meet the same standards. Please be sure to ask specifically if the class offers the following components:

- 1 man CPR and 2 man CPR for Adults, Children and Infants using Mouth to Mouth, Mouth to Mask and Bag Valve Mask techniques.
- Training for Automated External Defibrillator (AED)
- Obstructed Airway Training for Adults, Children and Infants.
- Chain of Survival

*Boston Reed will accept any program or combination of programs that cover this basic core curriculum. We must have a copy of your card as proof of completion to be eligible for externship.*
